

500 WS in the PUB

Register here:

WHEN: 23 September 2022 @ 19:00 WHERE: ONO Bern (Kramgasse 6)

Join us for an evening of science, games and free snacks.
Grab a drink, relax and listen to the
two inspiring scientists about their research!

Mercury in wildlife

Is mercury a threat to our wildlife?
Sabnam Mahat, a PhD candidate
researching mercury in the terrestrial environment
in Switzerland, explains how we can monitor
mercury and what the risks are to wildlife.

What is a string theory?

Travel with
Dr Nezhla Aghaei
to another dimension that helps to
understand the physics of the black holes.
